

World Hypertension Day

Dear Doctors,

The World Hypertension Day on the 17th of May every year is to educate the public and patients to increase their awareness of hypertension and its related complications, and the preventive measures that could be taken. More information about the World Hypertension Day can be found at www.who.int.

As a family doctor, you are well aware of the importance of monitoring blood pressure for patients during each subsidized chronic visit and record the measurements in the IT platform to keep track of good medical records for patients.

Should you have any queries about GOPC PPP, please feel free to contact us at gopcPPP@ha.org.hk. You may also call the Programme hotline 2300 7300 for assistance (after selecting language, press “5” to speak directly with our hotline staff). Thank you for your attention.

Yours faithfully,
GOPC PPP Programme Office
