

Substitution of Adalat Retard

Dear Doctor,

Please be reminded that the supply of anti-hypertensive drug, Adalat Retard 20mg (Nifedipine SR Tablet 20mg) will be discontinued with effective on 17 September 2019. Please consider alternative choices of drugs and progressively substitute the drugs for patients.

A list of your Programme patients prescribed with Nifedipine SR Tablet 20mg (if any) will be sent to you in separate email to ease your follow up. You can also follow the steps below to generate report of relevant prescription records.

1. Under GOPC PPP Administration, select “**Reporting**” > “**PSP Prescription Report**”
2. Select drug item, consultation date range, and one of the sorting options: “Patient Name” or “Consultation Date”.
3. Click “Show” button to generate the report.

The screenshot displays the web interface for the General Outpatient Clinic Public-Private Partnership Programme. The top navigation bar includes links for Clinical, Administration, Emergency Access, Standards, and Information. The main menu on the left lists Drug Order Management, Patient Admission Checking, Submit Reimbursement, and Reporting. The Reporting section is expanded, showing a dropdown menu with Patient Enrolment List and PSP Prescription Report. The PSP Prescription Report page is active, showing the following fields: Drug Name (Nifedipine SR Tablet 20mg), Consultation Date (01-Jan-2019 to 20-Jun-2019), and Sort by (Patient Name). A note indicates that report data are only available from 01-Oct-2016. The Show and Reset buttons are visible at the bottom.

Should you have any queries, please feel free to contact us at gopcphp@ha.org.hk or via Programme hotline 2300 7300 for assistance (after selecting language, press “5” to speak directly with our hotline staff). Thank you for your attention.

Yours faithfully,
GOPC PPP Programme Office
