

Increase in Programme Drugs Orderable Quantity

Dear Doctors,

Thank you for your participation and continued support to the Programme. Upon receiving feedback from some Participating Service Providers (PSPs) concerning the continuity supply of drugs for Programme patients, we are pleased to inform you that the orderable quantity for the following three Programme Drugs will be increased with effect from **23 October 2020**. You may access the drug ordering platform on eHRSS to check the updated balance.

Drug Item	Calculation Basis for the Orderable Quantity
Famotidine Tablet 20mg	From 20mg daily to 20mg BD
Metformin HCl Tablet 500mg	From 500mg TDS to 1000mg BD
Amlodipine (Besylate) Tablet 5mg	From 5mg daily to 7.5mg daily

Please be reminded that the orderable quantities of Programme Drugs are varied by the no. of enrolled patients prescribed with the drug item. In this regard, timely input of prescription records in the GOPC PPP Profile is essential for you to be able to see the most updated quantity of drug that could be ordered.

Should you have any queries, please feel free to contact us at gopcphp@ha.org.hk or via Programme hotline 2300 7300 for assistance (after selecting language, press “5” to speak directly with our hotline staff). Thank you for your attention.

Yours faithfully,
GOPC PPP Programme Office
