

# Interim Review

Dear Doctor,

At the start of the Year of Monkey, we wish you good health, happiness and prosperity all year round! With you continuous unfailing support, the GOPC PPP Programme has been running smooth since its implementation in mid-2014. As you may be aware, the Hospital Authority (HA) is undertaking an interim review for the Programme, valuable views and comments are being solicited from various stakeholders viz participating and non-participating private practitioners and patients, professional bodies, political parties, community partners and our staff. As an initial proposal, a list of enhancement and the roll-out plan are appended below for your early information.

We thank you again for your support to the Programme. We value your views and comments as always.

## GOPC PPP Progress Update

Adjustment of **Programme Fee**

**from \$2,708 to \$2,872** since 1 July 2015, and further adjustment may be made upon completion of each "Operation Cycle\*."

(\* Operation cycle starts from 1 July of each year.)

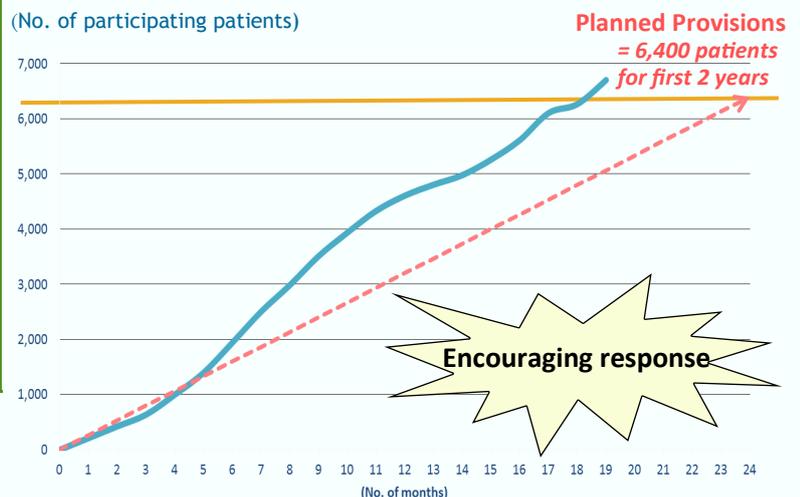

Private Medical Practitioners may provide non-Programme services to patients upon mutual agreement. The charges incurred by such services can be settled by Health Care Voucher. Starting from 2014, the annual voucher amount is \$2,000, with a maximum accumulation limit of \$4,000.

$$\text{Maximum subsidy per patient per year} = \$2,872 \text{ (Adjusted Programme Fee)} + \$2,000 \text{ (Health Care Voucher Payment)} = \underline{\underline{\$4,872}}$$

District	Participating Private Medical Practitioners (Invitation since 03/2014)	Participating Patients (Invitation since 07/2014)
