5 February 2016

Dear Doctor,

Revision of Terms and Conditions of the General Outpatient Clinic Public-Private Partnership Programme (“the Project”)

Thank you for your continuous support to the Project.

As you may be aware, the launch date of the Hong Kong Government’s Electronic Health Record Sharing System (“eHRSS”) is 13 March 2016. The Public-Private Interface Electronic Patient Record Sharing Pilot Project (“PPI-ePR”) will cease operation some time after the launch of the eHRSS.

We attach the revised Terms and Conditions (“**New T&Cs**”) of the Project, which will be effective from 13 March 2016 (“**Effective Date**”), incorporating changes relating to the implementation of eHRSS under the Project and other operational updates. In particular, please note that:

1. After you enroll in eHRSS, you will be able to take care of future project patients who have joined eHRSS and have given the relevant sharing consent. As such, we encourage you to enroll in eHRSS as soon as possible. If you have not joined eHRSS, you can still access the electronic patient record from the Hospital Authority of existing project patients under the PPI-ePR, and your attention is drawn to paragraph 13(g) of the New T&Cs.
2. Information regarding the Service Fee for Private Doctor, the Specified Drug schedule and the list of laboratory tests and x-rays available under the Project are posted on our website. Any updates thereof will be notified to you in accordance with paragraph 13(b) of the New T&Cs.
3. There is no specific end date for the Project. HA may terminate the Project by giving not less than 90 days’ prior written notice pursuant to paragraph 2.4 of the New T&Cs.

Please read carefully the New T&Cs, which will supersede the prevailing Terms and Conditions as from the Effective Date. Should you have any queries, please feel free to contact us at 2300 7300, e-mail to gopcphp@ha.org.hk or visit our website <http://www.ha.org.hk/ppp/gopcphp> for more information.

Thank you very much.

Yours sincerely,

Dr Leo H F CHAN
Senior Manager (Transformation Projects)
Cluster Services Division
Hospital Authority Head Office
