

Dear community haemodialysis centre,

**Revision of Service Fee for Haemodialysis Public-Private Partnership Programme
(the Programme)**

Thank you for your participation and support to the Programme.

In regard to the latest review exercise on the level of fees and charges for public healthcare services in Hospital Authority (HA), there will be a revision of fees and charges for public healthcare services.

According to clause 3(a) Part II of the Contract, each HA Patient has to pay the same amount as if he/she were paying the corresponding fee as currently set out in the Gazette on fees and charges.

As the charge of day procedure and treatment at renal clinic/centre will be increased from HK\$80 to HK\$96 per attendance with effect from 18-6-2017 (Effective Date), the fee payable by an enrolled HA Patient to a community haemodialysis centre will also be revised accordingly on the Effective Date while those with waiver arrangements will continue to enjoy the same benefit and subsidy as for the HA's services. The designated IT module of the Programme has been enhanced to adopt the new fee amount.

Please collect the new fee from the enrolled HA Patient from the Effective Date.

For your convenience, the fees under the Programme are tabled below.

Patient Status	Patient paid amount (Existing)	Patient paid amount (New)
Full Payment	\$80	\$96
Waiver 25%	\$60	\$72
Waiver 50%	\$40	\$48
Waiver 75%	\$20	\$24
Waiver 100%	\$0	\$0
GS/HA/Pensioner/CSSA/RCSV	\$0	\$0

For the latest programme information, please visit our website at www.ha.org.hk/ppp/hdppp.

Thank you very much.

Yours sincerely,

Haemodialysis Public Private Partnership Programme Programme Office
