Dear Sir / Madam,

New Co-payment Arrangements for Project on Enhancing Radiological Investigation Services through Collaboration with the Private Sector (Radi Collaboration)

As announced earlier on 25 March 2025, the Hospital Authority (HA) will implement the Public Healthcare Fees and Charges Reform starting 1 January 2026.

Under the revised Terms and Conditions of the Radi Collaboration, patients who undergo Computed Tomography (CT) and/or Magnetic Resonance Imaging (MRI) services starting from 1 January 2026 are required to pay co-payment amounts equivalent to the HA fees and charges as set out in the Gazette to receive services.

The following co-payment will take effect from 1 January 2026:

Service		Fee
Non-urgent Radiology Service	Advanced	\$500 per item

In addition to the existing medical fee waiving mechanism, the HA establishes a second safety net by introducing a HK\$10,000 cap on an eligible patient's annual spending for specified public medical fees and charges without requiring financial assessment with effect from 1 January 2026. The fees and charges payable by the patient being an Eligible Person to private practitioners under this programme will be counted towards the eligible medical fees and charges of the Annual Spending Cap. The spending amount can be checked via HA Go, One-Stop Electronic Kiosk and any hospital's Shroff office. Patients should refer to the Guide on Annual Spending Cap for details.

The HA will update relevant payment arrangement to ensure that correct co-payment amount is collected by private service providers.

Should you have any enquiries, please contact at 2300 7820, or visit the website at: <https://www4.ha.org.hk/ppp/en/ppp-programmes/radi/programme-intro>

Yours faithfully,

Radi Collaboration Project Office
